

## TSCA Basics Training Test

Name: \_\_\_\_\_

Date: \_\_\_\_\_

1. Provide a brief overview of the scope of the TSCA Act.
2. Who must participate in Chemical Data Reporting?
  - a. Every business unit producing product in the United States.
  - b. Every business unit importing product into the United States.
  - c. Neo Chemicals and Oxides
  - d. All of the above
3. If a U.S. customer advises you of an employee complaint in which the worker stated his belief that one of our products caused him to contract cancer, would this be a TSCA 8(c) – Allegation of Adverse Effect? Assume that the Safety Data Sheet and toxicology data do not indicate any risk of cancer.
  - a. **Yes** – this is an allegation of adverse effects. To be an allegation, there is no need for scientific proof.
  - b. **No** – this would not be a scenario that matches the definition of a TSCA allegation because the scientific literature does not support it.
4. Which of the following meet TSCA's definition of a chemicals substance. Please circle all that apply.
  - a. Gallium metal
  - b. MQPB+ Magnetic Alloy Powder
  - c. Each of the metals and the polymers in MQPB+ Magnetic Alloys Powder
  - d. Neodymium Oxide
  - e. A blend of two, pure RE oxides.
5. Provide a brief summary of the key changes required by TSCA reform.

6. TSCA applies to your work if:
- a. You are involved in bringing new products to market in the United States.
  - b. Your or a toll manufacturer you hire are involved in making a Neo product for sale in the United States.
  - c. You sell Neo Products in the United States.
  - d. All of the above.
7. What is the function of “flags” on the TSCA inventory and how might it impact our ability to market the product?
- 
8. Where can you find a copy of the TSCA Inventory?
9. Please circle all of the types of TSCA allegations we must keep records of:
- a. Allegations about products we or a toll manufacturer of ours produce in the United States.
  - b. Allegations about products we import into the United States.
  - c. Allegations about raw materials and other products we buy for use in our U.S. based manufacturing facilities.
  - d. Allegations from customers, neighbors, operators involving our products or the chemical substances we use in our plants.
10. If you become aware of a TSCA 8(c) allegation, name two functions that must receive a copy of your report:
